DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 17, 2006 has been entered.

Response to Amendment

The Amendment, filed on April 17, 2006, has been entered and acknowledged by the Examiner.

Cancellation of claims 7-12 has been entered.

Claims 1-6, 13 and 14 are pending in the instant application.

Allowable Subject Matter

Claims 1-6, 13 and 14 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a concave part formed in a material layer provided on a substrate, and a power connection part formed in the concave part, the power connection part comprising the plurality of scanning lines, the plurality of signal lines, the plurality of common feeders, the switching thin film transistors, and the current thin film transistors, the first electrode and the light-emitting part formed above at least part of the power connection part.

Art Unit: 2879

Regarding claims 2-6 and 13, claims 2-6 and 13 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 14, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 14, and specifically comprising the limitation of a concave part formed in a material layer provided on the substrate, common feeders formed in the concave part, the common feeders supplying power to each of the plurality of light emitting parts, and a first electrode formed above at least part of the common feeders.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
